**Forget-Me-Not Wilderness PLEDGE**

I promise to "Leave No Trace" of my adventures into the wilderness. I will not disturb or harm the animals.

I will treat the environment with respect and not pollute or leave any evidence of my presence there.

I will not take anything, but leave everything as I found it.

I will plan my adventure ahead so I know what to expect and what I need to survive in the wilderness.

I will be sensitive about the way my presence in the wilderness affects nature, animals, and other visitors.

I promise to leave no trace that I was ever there, keeping for myself only the exciting and wonderful memories from my wilderness adventure.
